

HOME OF MONTANA'S BIGGEST WEEKEND

## Grace Pauley, Cover Artist IN HER OWN WORDS....

I am a western portrait photographer serving Southwest Montana and beyond. My other passion besides photography is the Ag Industry and therefore I love capturing the people who embody the western lifestyle. I rely on natural light for my images and sessions, and I mainly photograph couples, individuals (not necessarily seniors), and families. My slogan is "Western Photography with a Whole Lotta Heart". My favorite part about myjob is making people feel confident in front of the camera and then again, afterwards when they receive their images.

- My family is from Beaverhead County and operates a ranch north of town
- I majored in Animal Science from WSU and am obtaining my Masters in Ag Ed
- I have my own little family (Rudy - husband, Audrey - daughter)

## Thanks, Grace, for this year's fair book cover art!

## OPEN DIVISION RULES \& REGULATIONS

## ENTRY AND REMOVAL OF EXHIBITS

1. Open Division competition is open to all residents of Beaverhead, Madison, Jefferson, and Silver Bow Counties with the exception of arena events (see entry form for arena event rules). The Open Division Youth sections are open to youth 17 years of age and under. Those 18 as of first day of fair must compete in the adult division.
2. Exhibitors in Open Class may enter up to two exhibits under one lot number unless only one is specified in said Department. Exhibits can be entered in only one lot number.
3. All entries must be made on regular non-animal entry blanks, with the exception of all animals, which must be entered by contacting the Beaverhead County Extension Office in Dillon. All tags used must be for Beaverhead County Fair, not used over from other fairs!
4. No entry (except in animals and houseplants) is eligible to enter which has previously been exhibited at this Fair. 5. All non-animal entry blanks must be properly filled in and submitted to the superintendent when entering the exhibit. All animal entry blanks must be properly filled in and sent or brought to the Extension Office, 2 South Pacific, by August 15. Be sure to fill in correct mailing address, as checks will be mailed by October 15.
No entries will be allowed after the times stated in the schedule of events.
5. Exhibits, except livestock, shall be the property of the exhibitors \& shall be of his own production. The management reserves the right to require a sworn affidavit as to the ownership, producer, and place of any exhibit.
6. Exhibits can be picked up on Sunday after Rodeo and before $8: 00 \mathrm{pm}$, but must be checked out with the Superintendent. Buildings locked at $8: 00 \mathrm{pm}$. Exhibits not picked up will be brought to the Office by the Superintendent. PLEASE CHECK OUT YOUR EXHIBITS BY SUNDAY. Exhibits not picked up will be disposed of or donated to charity. The fair is not responsible for exhibits not picked up. Any removed without permission will not receive premium money. All entries in Dept. K (Needlework - Sewing) and Dept. L (Drawing \& Painting, Photography, Hobbies \& Crafts) must be signed out. Vegetables and food exhibits not claimed will be disposed of to a local charity at the discretion of the management. Exhibits will be disqualified if tags and blanks are not completed.
7. Exhibits erroneously entered may be transferred at the discretion of the superintendent of the department in which they properly belong, if done prior to the start of judging in the class in which they are eligible. Exhibits not classified in the Premium List may be given a Lot \# by the Department Superintendent.
8. If you cannot bring your exhibit in person, address all exhibits to the Beaverhead County Fair Office, 2 S. Pacific, \#4, Dillon, MT 59725, or take to the Fair Office, (Make sure entry blanks are enclosed with exhibit entries). All exhibits must be well packed or crated and shipped with all charges prepaid. The Fair, or any of its agents or officers, will not be responsible for the loss, damage, or injury of any article, bird, or animal exhibited at the Fair, either during the Fair or while it is en route to or from the Fair, nor will the Fair be held responsible for the safe return of any exhibits to its owner, although due caution will be exercised to prevent loss or damage. All exhibitors will be held responsible for the return of exhibits. 10. Exhibits are open to Amateur Exhibits only.

## JUDGING AND PREMIUMS

1. In all Open Division lots, ribbons may be awarded as follows: $1^{\text {st }}$ place, Blue; $2^{\text {nd }}$ place, Red; and $3^{\text {rd }}$ place, White. Only one blue, one red and one white may be awarded in each lot. If no exhibit merits a blue, red or white ribbon, none has to be awarded. Absence of competition will not be accepted as justification for awarding a high class prize to an animal or article of medium or inferior quality. The judges in Department K reserve the right to disqualify any articles of clothing which are soiled or not washed before exhibiting.
2. Purple Ribbons will be awarded only in instances where the quality of the exhibit is so outstanding as to merit special consideration, and a blue ribbon has already been awarded. Blue ribbons will not be removed and awarded to another exhibit.
3. Rosettes are awarded only to blue \&/or purple winners upon completion of that given category. (i.e., Man's shirt)
4. Any exhibit failing to meet the requirements of number will not be judged or allowed to compete for awards.
5. Judges are instructed to place market animals on the basis of realistic market conditions.
6. Exhibitors must be able to show livestock to qualify for ribbons and awards.
7. ALL JUDGES DECISIONS ARE FINAL. ALL EXHIBITS MUST BE JUDGED!
8. All premiums will be paid by mail by October 15. Premiums will be paid according to the official awards entered in the judge's book and not the premium tags or ribbons. Purple ribbons receive no money nor do yellow ribbons, which are special awards only for honorable mention.
9. NO CHECKS from a current Fair will be honored after February 1 of the next year.
10. Premiums are paid as follows: Blue Ribbons, $\$ 3.00$; Red Ribbons, $\$ 2.00$; White Ribbons, $\$ 1.00$. Livestock (sheep, swine, beef) premiums are paid as follows: Blue Ribbons, \$10.00; Red Ribbons, \$5.00; White Ribbons, \$3.00.

## GENERAL

1. Management of the Beaverhead County Fair reserves the final and absolute right to interpret all rules \& regulations, to arbitrarily settle and determine all matters, questions, and differences in regard thereto, connected or incidental to the Fair.
2. Rights are reserved by the Board to formulate and announce new rules to meet emergencies that may arise during the Fair and to adjudicate all matters arising from the Fair.
3. The Fair Management reserves the right to exclude from the fairgrounds any person or persons whom it may deem undesirable, or who shall violate any of the rules laid down by the management, or who shall otherwise become offensive.
4. Every animal and article upon the grounds shall be under the control of the Fair Board, but while every precaution will be taken for the safekeeping of the same, neither the Fair Board, nor any of its officers nor agents will be responsible in any case for any loss or accident which may occur.
5. The management reserves the right to prescribe dimensions and regulate the position of all signs, and suggest the arrangement of articles on exhibition so far as the same may be necessary to secure harmony and attractive appearances.
6. The management reserves the right to regulate the parking of automobiles or other vehicles or conveyances within the fairgrounds and to direct where they shall be driven therein.
7. The management reserves the right to amend or add to these rules, as they in their judgment may deem advisable. In the event of conflict between general and special rules, the latter shall govern.
8. All Fair rules and regulations are drawn up by the Beaverhead County Fair Board.
9. No advertising is allowed by stating a price, where product can be purchased, or by who made or sold on any exhibit. Exhibit will be disqualified if this rule is not followed. This rule applies also after judging is completed. Any exhibit/exhibits on display for selling or advertising can be exhibited under, Booths and Commercial Space.

## SUPERINTENDENTS

1. Each superintendent shall have charge of the department assigned to him/her and be responsible for securing their own volunteer help. Each superintendent is charged with caring for and receiving the book of his department with the awards in each duly and properly entered therein, as it is upon this record only that premiums can be paid. Each page must be signed by the superintendent or judge immediately after completion of awards for the class. All superintendents shall furnish office with Special Awards sheet upon completion of judging. They shall file a report of their department, with recommendations, with the Fair Secretary at the close of the Fair.

## AGRICULTURAL EXHIBITS

1. Ownership: All exhibits must be owned by and entered in the name of the exhibitor. No exhibitor may receive more than two awards in any one lot.
2. Each livestock, rabbit, or poultry exhibitor should bring enough feed for their animal for the duration of the fair. Bedding for the entire Fair will be furnished by the Fair Management. Exhibitors should also bring their own troughs, pails or any other necessary equipment.
3. Identification: Identification signs provided by the Fair and filled out by the exhibitor, must be easily seen and in place before judging.
4. Beef, sheep, and swine stalls will be reserved and assigned on a first come, first served basis at the time of preregistration. Please check with the superintendent for your assigned location before unloading your livestock. 5. WILD ANIMALS - If an exhibitor is unable to handle his/her beef, that beef has to go home for reasons of safety. 6. NOTE: NO HAY other than WEED SEED FREE FORAGE may be brought into the Fairgrounds.

## BOOTHS \& COMMERCIAL SPACE

1. Indoor booths in the Commercial Buildings and assigned outdoor space are available on a first come, first pay basis for commercial use and display. Fees must be received by the Fair Secretary before a booth can be reserved. 2. Limited outdoor food concession spaces are available. A rental fee is required and must be received by the Fair Management before it can be reserved. A reference from another Fair must be received along with the fee.
2. All booths must be in place anytime on Wednesday of Fair week and ready to open on Thursday morning. Your area must be cleaned up before leaving.
3. All booths must be kept clean, sanitary, and orderly.
4. NO TRUCKS, ETC. (for restocking, etc. purposes) will be allowed on grounds after 9:00 a.m. on Thursday, Friday, Saturday, and Sunday.

## MONTANA WOOLEAG FACTS

*The Montana Wool Growers was established in 1883, making it the state's oldest agriculture organization in Montana.
*Montana produces approximately 1.4 million pounds of wool a year.
*An average fleece in Montana weighs about 8.8 lbs .
*170,000 head of sheep were shorn in Montana in 2022.
*Cattle and wheat remain Montana's largest commodities, and together account for three-fourths of the state's agricultural cash receipts.
*Montana ranks first in the nation in production of lentils and certified organic wheat and ranks second or third (depending on the year) in spring wheat, durum wheat, barley, flaxseed, and safflower. Montana also ranks within the top 10 states in production of honey, beef calves, winter wheat, alfalfa hay, garbanzo beans, sheep and lambs, wool, and sugar beets.

## DEPARTMENT G - POULTRY AND RABBITS <br> GENERAL RULES

NOTE: If an animal has been entered in 4-H, the same animal cannot be entered in Open.

1. Each exhibit must be the property of the person showing it.
2. Please specify breed on the entry form.
3. Chicken - Exhibitors are allowed (2) Purebred entries per variety. Any number of varieties can be entered.
4. Eggs - Must be sorted as to size \& marked accordingly. Only one size in each carton \& only one size (your choice) will be accepted in each lot.
5. The Judge or Superintendent may change exhibit to a different class according to age or development.
6. Pregnant does or does with bunnies under six weeks of age will not be shown or displayed. No bunnies under six weeks
7. It is suggested that your rabbit be tattooed in the left ear to discourage theft and help the judge identify animals.
8. Exhibitors should have pens, cages, etc., clean and animals presentable for public display by 9 A.M. each morning.
9. All poultry must be clean and free from parasites.
10. If animal/animals are found to be contaminated or diseased or in poor condition when checked in or at time of judging, they will be disqualified, and owner must remove animal(s) from premises.
11. No Entry may be removed from cage or handled by an unauthorized person, except by Special Permission.
12. Exhibitors must secure cage doors with wire, snaps, or locks. If using locks, one key must be left with Superintendent.
13. Posters and Educational material and for sale signs will be allowed as judge doesn't see the cages. Also, tags can be left open for the enjoyment of viewers.
14. Each exhibitor must bring enough feed to last the duration of the Fair. Exhibitors should also bring their own troughs, pails and other necessary equipment, properly identified.
15. It is recommended that each exhibitor freeze 3 jugs of water for each cage of rabbit(s) he/she exhibits. If it is hot, place a jug of ice in with the animal(s). Change daily and refreeze. It takes over 24 hours to re-freeze jug - that is why 3 are needed. The Fair will not have facilities for either re-freezing the jugs or keeping them frozen. This is the responsibility of the exhibitor only.
16. Young and mature birds, pairs and trios will be judged separately.
17. Any individual bird may not be entered in more than one lot.
18. All birds entered in any lot will be considered for awards.
19. More classes will be added if necessary to cover entries.
20. All Cross-Bred Birds can enter any number of entries but are limited to red and white ribbons. One red ribbon bird will be awarded Top Barney.
21. Only Blue Ribbon birds are eligible for Champion or Special Awards except (1) Barney Crossbred will be awarded. Barney is chosen on condition, coloring, size, or any characteristic, which makes it unique.
22. Any purebred is a bird recognized by the American Poultry Association.

Rabbits are broken into four class or six class breeds. As a general rule animals with a mature weight over 9 pounds are shown as a six-class animal while animals with a mature weight under 9 pounds are shown as a four-class animal. In the six class animal designation juniors are up to 6 months of age; intermediates are 6 to 9 months of age; seniors are over 9 months of age. In a four-class rabbit any rabbit up to 6 months is considered a junior, while any animal over 6 months is a senior.

*All exhibits MUST be grown by exhibitor and MUST not have been a purchased product. Also, the product MUST be entered for the $1^{\text {sT }}$ time in Beaverhead County Fair. EXAMPLE - Cannot have been entered in the Madison County Fair.
*ALL EXHIBITS must be shown on a white paper plate, without any decorations, in a Ziploc or plastic bag fastened with a wire tie, except for garlic, onions, zucchini, and any exhibit TOO large for a plastic bag. The exhibitor must provide his own paper plates and plastic bags. ALL TAGS USED MUST BE FOR BEAVERHEAD COUNTY FAIR. Vegetables too large for a plastic bag should have the tag fastened with string, scotch tape, etc. Exhibits not claimed Sunday night will be disposed of at the discretion of the Fair management.
*PLACE TAG ON OUTSIDE OF BAG. PLEASE ATTACH TO THE END OPPOSITE OF TIE. All entries must conform to number requirements. READ ALL DIRECTIONS FOR YOUR ENTRY.

CONDITION: Maturity of vegetables should be neither over-mature (vegetables tend to get tough) or undermature (vegetables should be ADEQUATELY developed).
SIZE: Vegetables should be neither the largest nor the smallest, but should be the best marketable or usable size.
CLEANLINESS: Clean vegetables in exhibit is a must! Do not scrub vegetables with a brush. Vegetables must be free of damage, injury or disease. Any root vegetable must have dirt removed.
UNIFORMITY: Exhibit should be uniform in size.

## VEGETABLE PREPARATION

BEETS. Color and tenderness are desirable qualities in beets. Oversize should be avoided. As a rule, beets from 2 to $21 / 2 l$ inches in diameter are best. Beets showing white streaks should be avoided. They should be smooth, without side roots or cracks. Leave $11 / 2^{\prime \prime}$ of the leaf stalk on.
BEANS. Green-Snap beans should be under, rather than over mature. Long straight specimens the same length and color should be selected. Avoid stringiness. The pods should be free from rust spots, dirt, and insect blemishes. The end of the bean should not be broken off when picking it. The seeds in the pod should appear to be $1 / 4$ to $1 / 2$ grown. Leave $1 / 2$ "stem.
BROCCOLI. Cut stem before the first whorl of leaves. The lengths of the stem should not be over 5 inches. Heads should be compact, dark green, (avoid yellowing), and free from decay, worms, or damage caused by wilting or injury.
CABBAGE. Type is very important. Leaves should not be peeled too closely. The heads should be firm, heavy in proportion to size, not withered or soft, free from damage, freezing, disease or injury, and the midribs should not be large, as that would indicate coarseness. Stems should be cut off. Do not peel to shiny skin. If cabbage splits before judging, it will be disqualified.
CARROTS. Avoid oversize. Type is important. Quality is best in medium-sized specimens. Color is very important. A deep orange carrot as nearly coreless as possible show to good advantage. Greenish or pale yellow, irregular, and coarse specimens should be avoided. Carrots should appear fresh, crisp, firm, smooth, clean, and free from sunburn, side roots, cracks, or other damage. Leave 1 " top.
CAULIFLOWER. The heads should be pure white, solid, uniform, smooth, and close flowered. The heads should not show leaves appearing through the head. There should be no over-mature or ricy specimens. The side leaves should be trimmed about 2 inches above the center of the head. Cut stems allowing 4 to 6 leaves to remain. Leaves should be free from damage and discoloration. Avoid exposing head to strong light.
CORN PREPARATION. Leave husks on.
CUCUMBERS FOR PICKLES. Avoid oversize and extremes of immaturity and over-ripeness, immature specimens are too spiny. Over-ripe ones may turn white or yellow. Cucumbers should run from 2 to 4 inches in size and should not be washed. Type and color are very important. Do not mix types.
CUCUMBERS FOR SLICING. Straight, firm, crisp and fresh. Colors should be green and white, not yellow, Avoid mature seed. A small seed cavity is desirable. Cucumbers may be washed.
GARLIC. Do not remove the outer dried coverings, do not grow in clumps. Leave a 2" stem. DO NOT BAG!
HERBS. Do not trim. If annual, 1 bunch without roots. If perennial, cut and use 1 bunch. Herbs may be placed in a container of water.
KOHLRABI. Remove roots just below ball. Leave 4 to 6 upper leaves trimmed. Kohlrabi should not be hard, woody, or pithy; it should be from 3 to 4 inches in diameter. The skin should be easily penetrated by thumbnail. Clean but do not wash.
ONIONS, Yellow \& White. Must be thoroughly ripened with necks dry. Uniformity and maturity are of particular importance. Type is important. Avoid large sizes. Should be clean, smooth, \& not peeled so as to be slick. The loose wrapper skins should not be removed. Onion must be solid and there must be no splits or doubles. Neck should be small. Onions should be free from damage caused by dirt, moisture, sunburn, disease, insects, or other injury. Twist tops instead of cutting, and leave $1 / 2$ " root.
ONIONS, Green. Are not mature onions. Should be clean, but do not wash or peel skin away. The dry tissue paper skin is to be left on. Onion must be solid and there must be no splits or doubles, Neck should be small. Onions should be free from damage caused by dirt, moisture, sunburn, disease, insects, or other injury. Green top should be trimmed 6 " with $1 / 2 \mathrm{~m}$ root left on. DO NOT BAG!
PARSLEY. Trim stems, leave crown attached. Pull up by root then trim their crown. Bunch together for best display using a 4 " to 6" stem.
PARSNIPS. Should be small in diameter and of great length. Free from rust \& side roots. Parsnips should be light creamy in color, not corky, top one inch above crown.
PEPPERS. True to variety, deep in color, fresh, firm, and symmetrical. Sweet peppers should show no red color. Pimentos should be red. All peppers should be free from sunscald or injury caused by insects and diseases.
PUMPKIN. Uniformity with variety type, size, and color (check with seed catalog for description of your variety). Free from insect and mechanical injury. Mature as shown by hardness of shell. Stems should be attached. Do not wash.
POTATOES. Shape and size should be typical of variety. Market demands in moderately oval, flat, or round shape, of medium size, 8 to 12 oz.
RADISHES. Remove tops 1 " above crown. Leave root. Clean but do not wash.
RHUBARB. Stalks should be uniform in size and color. Should be fresh and brittle, not pithy. Stalks should be solid. Leave 1" leaf top and tire root.
RUTABAGAS. Medium to large, uniform throughout, color bright and clean, fresh fine grained. Free from damage caused by freezing, pithiness, growth cracks, insects, disease, or mechanical injury. Leave a 1" top.
SQUASH (SUMMER). Sterns must be left on. Pick when small, before maturity when the shell is extremely soft. Uniform in size, shape, and color. Be sure samples are free from any damage or blemishes. May be washed.
SQUASH (WINTER). Select mature specimens with shells hardened. Do not wash. Leave stem attached. Uniform in size, shape, and color, free from damage. Extreme size is no advantage.
TOMATOES. Use only perfect shaped specimens true to type, smooth, free from cracks, sunscald, or any blemishes. Should be well colored (no green streaks) ripe, but not too ripe. Must be solid. Remove stem, display with blossom end up. Display green tomatoes with the stem on.
TURNIPS. Medium size is generally desired as having higher quality. Larger sizes may be bitter, corky, or pithy. All samples should look alike, should be clean and bright in color, but not washed. Remove tops 1 inch above crown. Should be free from damage caused by freezing, pithiness, and secondary rootlets.

## General Rules:

1. Amateur exhibits only (provides no more than $50 \%$ of income).
2. All hanging exhibits must have a safe, secure hanging device. (see below)*
3. Exhibits must have all entry forms and tags filled out. No late entries will be accepted.
4. Cover any signatures so that the artist's identity is not readily apparent to the judge.
5. Entries which demonstrate sewing as the primary focus should be taken to the Needlework Department.

Note: A $3 \times 5$ card with explanatory notes, secured to a unique entry, is acceptable and useful for the judge.
Youth: Add ' $\gamma$ ' to lot number (e.g. 101Y), and designate age on both the entry form \& tag.
Entries will be judged in the following age groups:
Thru age 8
Ages 9-11
Ages 12-14
Ages 15-17
Adult: Ages 18 \& over.
Senior: Ages 65 \& over. Add 'S' to the lot number (e.g. 101S). If you are 65 or older, you are not required to (but you may) enter under the Senior age group.

Handicapped: Ages 18 \& over. Add 'H' to the lot number (e.g. 101H).
*Acceptable Hanging Fixtures: To protect your work from damage, and to maintain uniformity in displays, all drawing, painting, and photography exhibits must have an adequate hanger. These may include: Youth under 12 years old may use construction paper. Ages 12 through adult must use: card stock, poster or foam board, shrink wrap, or traditional framing.

## Drawing, Painting, \& Photography - Definitions:

## FLORICULTURE GENERAL INFORMATION

The Floriculture Department is divided into three Divisions, Cut Flowers (Division I); Container Plants, Special Culture, Planters and Yards (Division II); and Artistic Designs (Division III). Division II is further divided into four parts, Part 1: Flowering Containers; Part 2, Foliage Containers; Part 3 Cacti and Succulents and Part 4, Special Culture, Outdoor Planters and Yards. The Superintendent and staff will gladly assist an exhibitor who has questions in entering the correct Lot Number.

ALL LOTS ALLOW TWO ENTRIES PER PERSON PER LOT UNLESS MARKED WITH AN ASTERISK.
YOUTH means any person 17 years of age and under. Youth classes are available in all Lots; youth entries should be designated by a " Y " and the current age of child. For example, $100-\mathrm{A}(\mathrm{Y} 8$ ) would be for a youth, age 8, entering a golden Achillea. Special Youth classes are available in the Design Division. PLEASE SHOW AGE ON THE TOP RIGHT ENTRY TAG. YOUTH SHOULD ENTER ON YOUTH COLORED (PINK) ENTRY BLANKS.

## DIVISION I - FRESH FLOWERS

Conditioning Fresh Flowers: Always cut fresh flowers in the early morning when they have had the benefit of the night's cooling temperatures. Stems are tight with water, leaves are covered with dew and most blossoms have recovered from the excesses of the prior day's heat. While it is possible to cut flowers in the evening, morning-cut flowers will have greater vigor. If cutting in the evening let flowers recover from any wilt due to heat and/or drought. Whenever possible chose flowers just at maturity and not showing pollen rather than older blossoms.

Take a bucket of TEPID, NOT COLD WATER into the garden and plunge the cut stems directly into it. Cold water is not recommended as it shocks a flower, blocks pores and interferes with absorption of water thereby decreasing longevity. Stems may be cut either slantwise or horizontally. Buckets and cutters should be surgically clean; conditioners or foods may be added to the water and are required for some plants. Commercial conditioners are available at all local flower shops; a home- made solution using 1 tablespoon of corn syrup and 10 drops of liquid bleach to a gallon of warm water works well. Similarly, a mixture of lemon/lime soft drink and warm water in the ratio of 1 part soda to 2 parts water is effective.

[^1]Some flowers exude a milky, rubbery substance when cut. Poppies are the most common example. These flowers must be burned or steamed at each place there is a cut or removed leaf in order to be preserved.

Hollyhocks, delphiniums, dahlias and other hollow stemmed species need special treatment. Hollyhocks should be placed in water to which a handful of rock salt per quart has been added; stems should be slit about 4 inches and seared.
Delphiniums should have hot, but not boiling water poured in the stem, the stem covered, lowered into tepid water and then left to cool. Dahlias should be conditioned in hot but not boiling water. Some exhibitors burn the end of dahlia stems as for poppies.

## Definitions and General Notes:

When annual, biennial and perennial forms are allowed in one lot, the exhibitor must use either annual, biennial or perennial; do not mix annuals, perennials or biennials in the lot. Staging information: No plant foliage (leaves) should be displayed underwater. Wedging should be used to keep stems in center of container (saran wrap works well). Each Sunflower stem shall display only 1 bloom; remove buds from stems. Entering a Lot under "Mixed Colors" refers to each bloom in your entry being a different color from the others. Examples of "Mixed Colors" would be 3 stems, with 3 different colors of blooms (1 pink, 1 red, 1 white) or 3 stems, 2 different colors of blooms ( 2 pink and 1 red). Any "mix" of colors would be accepted under Lots stating "Mixed Colors." "Variegated" refers to a single bloom exhibiting different colors, especially as irregular patches or streaks (example: 1 purple with white bloom). This item would NOT be entered in "Mixed Colors" unless the other blooms in your entry were of different colors (example: 3 stems, 3 different colors of blooms ( 1 purple with white, 1 pink and 1 red).
Unless otherwise specified, all specimens in an exhibit must be the same color or color pattern.
The following definitions must be followed for proper exhibition:
BLOOM: means one (1) flower; foliage required.
HEAD: for flowering cabbage and kale, the apical bud.
STALK: shall mean a stem bearing a terminal cluster of many flowers with foliage required unless otherwise indicated.
STEM: shall mean a single flower on one (1) stem with foliage required, unless otherwise indicated.
SPIKE: shall mean a single stem possessing many individual florets; foliage a required.
SPRAY: shall mean 3 or more flowers per stem with foliage.
SPECIMEN: shall mean a typical representative of the genus, species, type or cultivar. Called for when there is a possibility of more than one bloom form in a lot as indianthus, or for a foliage plant.

Marigolds: Lots 144A - are eligible for the Everett Dirksen Marigold Award. One set of leaves must be retained.

There are three common flower types of marigolds (Tagetes species), so-called African (T. erecta) called American in these lots; French (T. patula), and Signet (T.tenuifolia). All Tagetes species are from Mexico in spite of their common names. Giant and large flowered American types are large, over $2 \frac{1}{2} 2^{\prime \prime}$, and have double carnation style blooms. There are rare large flowered singles. French flower types are smaller, usually from $1-2 \frac{112}{2}$; flower types are varied, but have the following basic forms: double; semi-double; and single. Semi-doubles are further divided into two forms: crested, and anenome. Double flowers have fully double, rounded centers; semidouble crested have mounded, full
centers which are distinctly crested; semidouble anenome types have flat, recessed centers.
Singles have one row of petals. Signets are very small flowered singles.

146B Nicotiana, mixed colors, 3 sprays
Pansies, and Violas: Lots 148A - I are eligible for the Rev. H.N. Tragitt Pansy Award.
Pansies and Violas have special exhibition requirements. Use the following directions:
Display blooms in a shallow, covered dish. Fill the dish with water. Use plastic wrap or the new selfsticking wrap secured to the outside and bottom of the bowl to cover the top of the bowl (the English use velvet to cover the exhibition bowls). Cut small slits in the cover and insert the stems of the blooms into the water in the bowl so that the flowers will lay flat on top of the cover. Be very careful to make sure the stems stay in the water, as they have a tendency to float to the surface and dry out.
The difference between pansies and violas is the shape of the flower.
Exhibition pansies should be round; violas are more butterfly shaped.
*148A Pansy, giant, single, over 3", one (1) color, 3 blooms
*148B Pansy, giant, single, over 3", mixed colors 3 blooms

## DIVISION II - CONTAINER GARDENING

Plants entered in this Division are judged on their overall condition as well as the condition and cleanliness of the container and water or drip-pan. All containers must have a water-pan supplied. Plants should be groomed, cleaned of spent blossoms or foliage, pot rims scrubbed and clean, and salt buildup removed. Double crowns in specimen plant such as African Violets are a serious exhibition fault. Plant exhibitions are like beauty contests: each contestant should be shown off to its very best advantage. Grooming is the chief exhibition technique and requires basically only time to accomplish. No Leaf Polish should be used.
Regular care: proper light, fertilizer and water are essential to make a plant come to its full potential. Questions about culture should be referred to the Superintendents
This Division is limited to one plant per container, unless excepted. It is limited to plants grown for their flowers, fruit and/or foliage. Vegetable food plants are excluded. Container size limit is 24 diameter, unless excepted. Hanging plants are allowed in the appropriate lot. Heights listed mean tallness at maturity.

## Part 3: Cacti and Succulents

ONLY ONE ENTRY PER LOT NUMBER. Cacti and succulents are very similar types of plants which have adapted to drought in whole or in part of their life cycle. It is useful to know that all cacti are succulents but not all succulents are cacti. They are differentiated by the presence or absence of areoles, which are foreshortened branches. Little tufts of hairs, bristles or spines grow from these joints, which give rise to the flowers. All cacti have areoles; no succulents have them.

Desert Cacti:

*Lot 420 is eligible for the Paul Boetticher Award. Entries limited to the metro Dillon area. Pictures of the yard are necessary for display at the Fair. Yards will be judged on Wednesday. Efforts will be made to contact entrants so they can be present to answer judges' questions; however it is not mandatory for the owner to be present at the judging. If an entered yard cannot be accessed safely, it will not be judged.

## Division III - Artistic Design

## General Design Information:

Plant materials need not be grown by the exhibitor; all materials must be properly conditioned. Artistic design results from the interaction of the principles of design with the elements of design. Design principles are similar to art principles: Balance, Dominance, Contrast, Rhythm, Proportion and Scale. Design elements are: Line, Space, Form, Pattern, Color, Texture and Size. The exhibitor brings individual creativity and expression to the plastic organization of components, resulting in designs of beauty, harmony, and distinction.

Creative and Tradition designs are permitted in all lots not specifically limited to one or the other design types. Creative and Traditional designs are classified according to National Garden Club criteria. The Superintendent reserves the right to move any and all designs to assist in the judging process. An exhibitor should check before judging to make sure that the design is presented as intended. Pre-registration for hanging designs and those designs which need a power source is appreciated; the Superintendent should be notified of any Functional Table designs in order to properly stage them.

Accessories are permitted in all lots unless specifically prohibited and are required in some. Utensils should NOT be used as an accessory. Backgrounds are permitted in all designs where appropriate. Small and miniature designs are meant to be viewed at the Judges' eye level and will be staged to best exhibit the designs.

Containers are the bases for designs; and since they are an integral part of the design, all principles and elements apply. In general, avoid using white vases. They draw the eye away from the design and the focus is left on the white container. The exception here would be Lot 507, Arrangement in white, use white container. The newest trend in design is containerless designs which rely on construction for stability and often use tubes for water or use hardy plant materials which will not readily dry out.

## DIVISIONS IN DESIGN

In order to create interest in the Design Division, it is divided into Youth and Adult Sections. Sections are further divided into NOVICE, INTERMEDIATE AND EXPERIENCED levels.

## Adult Divisions:

Novice Designer: any person, 18 and older, who is a first-time entrant in the Design Division at the Beaverhead County Fair or a person who has not won more than two (2) blue ribbons in the Design Division at the Beaverhead County Fair.
Intermediate Designer: any person, 18 and older, who has entered the Design Division at the Beaverhead County Fair in prior years and who has won two (2) or more blue ribbons in the Design Division.
Experienced Designer: any person, 18 and older, who has attended flower design or Flower Show School or served as a judge at a fair or standard flower show.
*The Superintendent keeps a record of the blue ribbons won by exhibitors; if the exhibitor has questions, please inquire. When entering the exhibitor should designate the entry with the appropriate designation: $\mathrm{N}, \mathrm{I}$ or E , following the lot number.

## Youth Divisions:

Youth entries in design are not restricted to any Lots, but are specially designated in Lots $503-506$. Youth entries should be designated by a $Y$ and the current age of child. Please show age on the top right of entry tag. For example, "Y8" would be written for an eight-year-old exhibitor.

## Awards in the Design Division:

All lots allowing dried materials in the design are eligible for the Louise Riley Dried Arrangement Award. All lots designated with an "E" following the Lot Number are eligible for the Best of Show Arrangements, Experienced; all lots designated with an "I" following the Lot Number are eligible for the Best of Show Arrangements, Intermediate; all lots designated with an "N" are eligible for the Best of Show Arrangements, Novice. #### Abstract

The Bitterroot: Montana chose a deserving state flower in the lovely Bitterroot. It has lent its common name to a mountain range, a valley, and a river. It has taken its scientific name, lewisia, from the famous explorer, Captain Meriwether Lewis, who was the first man to collect information about this exquisite plant. It is a lovely, lowgrowing pink bloom you'll find in the foothills during the spring and summer months.

Indian Paintbrush: Castilleja, commonly known as paintbrush, Indian paintbrush, or prairie-fire, is a genus of about 200 species of annual and perennial herbaceous plants native to the west of the Americas from Alaska south to the Andes, northern Asia, and one species as far west as the Kola Peninsula in northwestern Russia. It has a vibrant paintbrush-like appearance and rich scarlet hues that pop against the landscape.

Pollination is the process of moving pollen from one flower to another of the same species, which produces fertile seeds. Most flowering plants depend on native bees for pollination. Bees and other animals pollinate one-third of the food we eat - all kinds of fruits, vegetables, grains, nuts and beans. And they provide us with landscapes filled with wonderful wildflowers. Bees are by far the most effective pollinators because they only feed on flowers.
Flowers attract and reward bees for their pollination service with sugar-rich nectar to fuel their flight and proteinrich pollen, or bee bread, to feed their young brood.

## Fair Food History

County and state fairs are very American. You will not find a county fair in Europe, Australia, or Asia, but you will find one in almost every state of the U.S. and many counties. Europe took on the World by creating exhibitions that invited the World while the U.S. stayed local. Agricultural and livestock fairs started early in
the 19th century on the east coast and then spread westward. Fairs allowed rural farmers to see the latest agricultural equipment and compete with neighbors to see who grew the most enormous watermelon or pumpkin. Almost 80 years later, the ladies of the farmers started prepared food competitions that began with pies and preserves. Today you still find many competitors for the coveted Blue Ribbon.

Many foods have been invented, discovered, or tested at fairs. At the second U.S. World's Expo held in 1893 in Chicago, a few famous foods were born. Cracker Jack ${ }^{\circledR}$ was created and sold by the Rueckheim brothers. Pabst Beer won the highest honors in competition and changed the name to Pabst Blue Ribbon Beer®. Nancy Green, a former slave in a print dress and white apron, told stories while cooking pancakes with a new selfrising mix and became Aunt Jemima ${ }^{\circledR}$. William Wrigley, Jr., a soap and baking powder salesman, handed out Juicy Fruit ${ }^{\circledR}$ gum to his customers as an incentive to buy his products. He soon founded the Wrigley Chewing Gum Company, and Spearmint, his second flavor, is still the number one chewing gum brand in the World. Manufacturing companies tried to sell machines and methods to make Shredded Wheat ${ }^{\circledR}$ and Cream of Wheat ${ }^{\circledR}$ brands, but people were more interested in the finished products. Milton Hershey of Pennsylvania, maker of caramel products, purchased equipment to make milk chocolate candy bars and became the first mass producer of the bars that made Hershey famous for chocolate. Bertha Palmer, the wife of hotelier Potter Palmer of the Palmer House Chicago, asked her chef to create a dessert that her fair planning committee could eat while wearing gloves. The first brownie was such a hit with the ladies. It was introduced at the fair. Today, turn down service at the Palmer Hilton includes a historical brownie.

## Division V - Culinary Display

1. Display entries in a self-contained basket, box, bowl, or tray.
2. Incorporate at least 5 different culinary items. Multiple pieces of a kind (cookie, candy, muffin, etc.) count as one item. You may incorporate up to 5 inedible decorative items (card, spoons, rolling pin, apron, etc.) or purchased food items (olives, pimentos, etc.) in the display.
3. Include a label stating the intended occasion or theme, listing all the culinary items you have made, and separately noting the inedible or purchased items.
4. The display will be judged on creativity and appearance alone. Nothing will be opened for taste or texture. Make the basket contents plainly visible. If individually wrapped, use see-through wrap or containers. The entire display may be enclosed in easy-open clear wrap.
5. Ready-to-bake (full or partial meal) may require additional perishable items and assembly before baking. Ready-to-eat breakfast or lunch includes a simple meal with minimal assembly but no baking.
6. Sorry, no fridge or freezer foods accommodated in this Division.

Note: Separate items from the same batches are allowed to be entered in their individual categories.

Examples:
Theme ideas: holidays, birthday, graduation, new baby, anniversary, congratulations, get well, thankyou, missing you, farm, garden, zoo, sports, etc.

4-H \& FFA YOUTH DIVISION Rules \& Regulations
}

All 4-H \& FFA Members: Your Beaverhead County Fair check for awards MUST be cashed by February \(1^{\text {st }}\) to be accepted at the bank. PLEASE DO NOT HOLD!
1. Rights are reserved by the Board to formulate and announce new rules to meet emergencies that may arise during the Fair and to adjudicate all matters arising from the Fair.
2. The Fair Management reserves the right to exclude from the fairgrounds any person or persons whom it may deem undesirable, or who shall violate any of the rules laid down by the management or who shall otherwise become offensive.
3. Every animal and article upon the ground shall be under the control of the Fair Board, but while every precaution will be taken for the safekeeping of the same, neither the Fair Board, nor any of its officers nor agents will be responsible in any case for any loss or accident which may occur.
4. The management reserves the right to amend or add to these rules as they in their judgment may deem advisable. In the event of conflict between general and special rules, the latter shall govern.
5. 4-H age regulations are determined by age as of October 1 of the previous year, as follow: Superstarter, ages 8-10, must turn 9 by end of current 4-H year (Sept 30); Junior Division, ages 11-13; and Senior Division, 14 years or older.
6. All 4-H, FFA and FHA members in Beaverhead County may compete in the Youth Open Class Division, including groups of these members. 4-H projects cannot be entered in the open division. The exhibit must be made, owned, or raised by the exhibitor, with the exception of horses. Open division rules then apply.
7. ALL FAIR ENTRIES (livestock \& 4-H building) must be pre-registered by August \(10^{\text {th }}\) of 2023. Mail entries to: MSU Beaverhead County Extension, 2 S. Pacific STE \#11, Dillon, MT 59725. Extra blank entries can be picked up at the Extension Office.
8. No premium money will be paid to any 4-H member until his/her project has been completed and his/her record book has been received at the Extension Office by October 1 of the current year.
9. All exhibits in the Youth Division will be judged on the Danish system of placing. All ribbon points will be as high bracket exhibits.

Ribbon Points Awarded High Bracket Exhibits

Purple

Blue
6

Red
4

White
2
10. Any exhibits failing to meet the requirements will not be judged or allowed to compete for awards. No exhibitors may receive more than two awards in any one lot.
11. The interview process is part of ALL 4-H exhibits except for Market Animals. You do not receive a separate ribbon for the interview. Any exhibitor who missed an interview will not qualify for a purple ribbon or special award on an exhibit. An unexcused exhibitor can only receive a red or white ribbon on an exhibit.
12. Livestock members will be required to wear a long sleeved, collared white shirt (not-shirts, sleeveless or cropped shirts), tie or bolo (no bandanas) and black pants (no stonewashed or holes in jeans). Cowboy hats are optional, no ball caps allowed. Open-toed shoes will not be allowed. 4-H members interviewing in the 4-H building are required to wear a long or short sleeved collared white shirt (no t-shirts or sleeveless shirts or cropped shirts), tie or bolo (no bandanas), and black pants or skirt.

\section*{Guidelines for Livestock Barns for All Exhibitors}
1. Keep aisles clean of manure, bedding, feed pails, trimming chutes, chairs, tack boxes, etc. Make it very accessible to the public. Aisles will need to be raked several times daily.
2. Animals need to be fed weed seed free hay while on fairground premises.
3. Clean bedding between 6-9 am each morning. This means taking your animals outside (except hogs). Animals are not to be left tied to the wash rack. This is also a good time to exercise your animals. Clean the area thoroughly, not only the manure, but also all wet areas. Replenish with clean bedding. Make your area clean for your animals and eye appealing for the public. Animals and areas must be checked several times a day. Keep all manure picked up throughout the day.
4. Feed and water morning and evening. Water more frequently in hot weather. No feed pans or water buckets are to be left in front of cattle. Feeding and watering must be done between 6-9 in the morning and between 4-7 in the evening.
5. All cattle should be tied in the barn with a rope halter and a neck rope to prevent the animal from getting loose.
6. Grain and hay, if kept in the barns, must be kept in the tack/feed area provided for each club and or exhibitor. These areas are also to be kept clean and uncluttered, free of garbage, empty pop cans, etc. Grain must be stored in a secure container or out of the building for the night.
7. Each club will be responsible for cleaning the outside of the barns and entry areas for one day during the fair. Check with your leader for your club cleaning schedule.
8. Medicated blocks (bloat blocks) are acceptable supplements to leave in front of animals.
9. All youth must attend three (3) mandatory meetings (spring weigh-in, livestock quality assurance, pre-fair livestock meeting) to show and sell their market animal at the fair.
10. No dogs will be allowed in the barns or around the show ring the day of the show.
11. Clean Up and Check Out: All companion market animals must be removed by 8 p.m. Saturday. Livestock members must be present on Sunday morning by 8 a.m. to clean pens and livestock barns. All participants are required to check out with the barn superintendent. All livestock pens must be cleaned (4-H and Open) by 9 a.m. on Sunday. Market beef, market sheep, market goat and market hog members are responsible for cleaning the beef, sheep, and hog barns. Breeding sheep and breeding beef will be released at 7 p.m. on Saturday or at 8 a.m. on Sunday. Breeding pens in the breeding barn must be cleaned before you can check out.
12. All participants in the Livestock Sale are encouraged to be with their animals and in their barns one (1) hour before the sale. This is to encourage contact with potential buyers and to help promote the sale.
13. Written thank you notes to livestock buyers are mandatory. Members must drop their thank you notes off at the Extension office when complete. The Extension office will be responsible for mailing them.
14. The above duties can only be excused if discussed with the superintendent in advance. Failure to follow the above guidelines will result in the following: a) A verbal warning, b) forfeit of all premium monies and c) not being allowed to exhibit livestock the following year.

\section*{AGRICULTURAL EXHIBITS}
1. All market animals including companion animals must be tagged (if not already) and weighed in on Wednesday. No "FOR SALE" signs for companion animals will be allowed. BRING A BILL OF SALE FOR MARKET BEEF.
2. All 4-H, FFA and Junior Breed Association members exhibiting livestock must attend a mandatory pre-fair meeting.
3. Judges are instructed to place market animals, based on realistic market conditions.
4. Exhibitors must be able to show market and breeding animals to qualify for ribbons, awards, or to sell animals.
5. All cattle will be required to wear a double-tie neck rope in addition to a halter.
6. No feed and water tubs are to be left in front of cattle. Grain and hay are to be kept in the tack/feed area provided for each club or general exhibitor. Grain will either be kept in a secure container or taken out of the beef barn at night.
7. Only regularly enrolled 4-H \& FFA members are permitted to sell at the Market Animal Livestock Sale. Each member will be permitted to sell one market animal but may show more than one animal. A member must notify the Extension office of their designated sale animal by registration deadline. A properly identified rope halter must be left with each calf sold and calves must be left tied up.
8. A member can enroll in more than one species of market animal if they wish. The member can only show one animal per species in the 4-H/FFA division. If any of the member's animals are judged Grand or Reserve regardless if it was a member's designated sale animal, it must be sold.
9. Beef must be 1,000 pounds to sell. All beef weighing over 1,350 pounds will be sold at 1,350 pounds. Miniature beef must be 500 pounds to sell. All miniature beef weighing over 950 pounds will be sold at 950 pounds. Hogs must be 215 pounds to sell. All hogs weighing over 285 pounds will be sold at 285 pounds. Lambs must be 100 pounds to sell. All lambs weighing over 150 pounds will be sold at 150 pounds. Market goats must be 50 pounds to sell. All market goats weighing over 90 pounds will be sold at 90 pounds. Animals below minimum weight on entry day will have a chance to be re-weighed the following morning before showing.
10. All members showing livestock must wear a long or short sleeved collared white shirt (no t-shirts, sleeveless shirts, or cropped shirts), tie or bolo (no bandanas), black pants (no stonewashed or holes in jeans). Cowboy hats are optional, no ball caps allowed. Open-toed shoes will not be allowed. 4-H showman qualifying for the Round Robin contest will be required to wear official dress for the species in which they qualified for the contest. (i.e., Horse showman must meet 4-H horse dress code as livestock (beef, swine, sheep/goat) showman must meet above standards). The 4-H dress code is also required in the Sale Ring and WILL BE strictly enforced by thesuperintendents. Members not in dress code WILL NOT be able to show their animals or sell.
11. Exhibitors will not be allowed to decorate their animals for the sale!
12. Market pictures will be required for pre-registration. Dress in 4-H or FFA attire.
13. All exhibitors are expected to care for and groom their animals while at the Beaverhead County Fair. Adults and other members and/or leaders can assist in the preparation and care of the animal only while the exhibitor is in attendance. Assist shall mean to provide instruction and demonstrating under the discretion of the superintendent and livestock committee. The members should be gaining practical experience by performing the preparation.
14. No tranquilizers shall be used on any animals. Exhibitors shall be disqualified if an animal is given a tranquilizer. No awards will be given to a tranquilized animal. A veterinarian will be asked to check animals suspected of being tranquilized at the expense of the exhibitor. The exhibitor will also be suspended from exhibiting livestock for the next year.
15. A veterinarian must be present if any medication is to be used on any animals attending the fair, while at the fairgrounds. If a veterinarian is needed, a barn superintendent must be notified immediately by the exhibitor.
16. Each exhibitor is expected to keep their stall neat and clean. All livestock members will be required to clean their stalls at 8:00 am SHARP on Sunday morehing. Breeding Beef and Breeding Sheep housed in the

Breeding Barn will be allowed to leave at 7:00 pm Saturday or 8:00 am Sunday. The stalls in the breeding barn must be cleaned upon check out and must check out with the barn superintendent.
17. The Fair Board will furnish the bedding for the entire Fair. The beef barn will be bedded before the beef arrives. Straw hay is only used in the hog, sheep, and breeding barns. Use extra straw only as needed. DO NOT WASTE! Straw bales are not to be used to separate animals.
18. Each livestock exhibitor will provide enough feed to last the duration of the fair. Exhibitors should also bring their troughs, pails, and other necessary equipment, all properly identified.
19. ALL FAIR ENTRIES (livestock \& 4-H building projects) must be pre-registered on the 4-H, FFA \& OPEN Entry Blank, by August \(10^{\text {th }}\) of 2023. Only drops will be taken at the fair for breeding.

Mail to: MSU Beaverhead Co. Extension Office,
2 South Pacific STE \#11, Dillon, MT 59725 or call 683-3785 with questions.
20. Display a stall card for market and breeding beef, sheep, goats, and swine. You may pick it up from the superintendent.
21. At checkout time beef, sheep, hog, horse, rabbit, poultry, and breeding barn stalls must be cleaned. If your stall has not been cleaned, \(\$ 10\) will be deducted from the sale of your animal to go to the club that cleaned your stall.
22. Wild Animals - For safety reasons, if an exhibitor is unable to handle their animal by 9 am, Thursday of Fair, the animal must be taken home.
23. Horses are not allowed in the area between the sheep barn and the commercial exhibit buildings. Safety is important.
24. If a retained testicle is detected in a lamb or other species prior to or at the fair, the member is still allowed to show and sell the animal. The animal will be placed at the judge's discretion, and it will be noted on the sale bill that this animal contains a retained testicle for the buyer's information.
25. An exhibitor may take a companion animal, but the companion must be owned by the exhibitor or his/her immediate family. The animal cannot be shared among different families. 4-H market animals must be weighed in and tagged at the advertised location and date to qualify to compete for any carcass award or merit program. Animals can still be weighed and tagged privately, but the information must be submitted prior to the county weigh-in date. Proof of ownership for all market animals will be required on this date.
26. No exhibitor will be issued a livestock check unless there is verification of a thank you letter (note) by October \(1^{\text {stt }}\). Written thank you notes to livestock buyers are mandatory. Members must drop their thank you notes off at the Extension office when complete. The Extension office will be responsible for mailing them.
27. Livestock Grievance Committee - In the instance that an exhibitor has a livestock problem or conflict and would like to file a grievance, they start the grievance procedure by approaching a barn superintendent of the species in question. The grievance procedure may only be initiated by the exhibitor; not a parent or a 4-H Leader. The Grievance Committee for each barn will consist of the two superintendents from the respective barn plus one barn superintendent from each barn and the livestock committee chairperson.
28. All inquiries for the buyback of the resale beef, lambs, goats, or swine will be directed to the livestock committee. Price will be set at the discretion of the livestock committee. Contact with the buyer about possible resale will not be allowed.

\section*{Locally Grown Steers \& Lambs LOCALLY GROWN STEERS \& LAMBS provide incentives for those members who choose to buy from local producers \& feed their lambs from local merchants to support our local economy.}

\begin{abstract}
We have a good selection of steers and lambs from local producers that are some of the best in the state. We would like to acknowledge these producers and the youth that buy them with awards in a separate class at the fair. These market animals would have to be bought from producers within a 60 -mile radius of Dillon and fed from local merchants. Both the sire and the dam of locally grown steers and lambs must be in residence of a 60 -mile radius of Dillon by October 1 of the current 4-H year. We would like to acknowledge youth that show these animals with several incentive awards that they can use for feed, etc. This would be limited to primary steers and lambs that the youth is planning to sell at the auction.
Another award will be a Carcass Award for the Locally Grown Grand Champion Carcass Lamb and the Locally Grown Reserve Champion Carcass lamb. This would also be limited to the primary lamb. These would get \(\$ 100\) for Grand Champion Carcass lamb \& \$50 for Reserve Champion Carcass lamb.

Can you name the plants that inhabit our rangelands? They provide food and habitat for animals and protect our watersheds from soil erosion. Some even have medicinal uses!

Participants can compete for prizes in a plant identification contest, or just walk through the exhibit to learn about the native plants and weedy invaders of rangelands. Sharpen your identification skills \& test your plant knowledge.

- Exhibitors should be currently enrolled in one skill level of the entomology project. Exhibit no more than 2 items per level. Exhibit boxes of insect collections should be \(18^{\prime \prime} \times 12^{\prime \prime}\) for 25 insects and \(18^{\prime \prime} \times 24^{\prime \prime}\) for 50 insects. Each box should be \(3 \frac{1^{\prime \prime}}{}\) to \(4^{\prime \prime}\) deep. Boxes should be covered with Plexiglas that can be removed. Collections should be organized by order.
- Performance in preparation of each collection shall require adherence to proper pinning and labeling methods as described in the 4-H entomology project materials and other recognized sources. Specimens shall be undamaged, and if moths or butterflies, the wings shall be properly spread. Spreading legs and wings of other groups is not required but shall receive recognition if done. Arrangements shall be neat and uniform in such a manner that anyone examining the collection can understand the groupings. Educational displays may consist of specialized groupings of insects or related to any aspect of insect life. Displays should be presented in a clear, concise, and interesting manner. The purpose of educational displays is to learn more about the importance, life cycles, biology, ecology, diversity, etc., of insects and related arthropods. Subject matter can be as varied as the animals themselves.

\section*{Beaverhead County 4-H Building} lick to be displayed \& judged, members to participate in interviews \& serves as a meeting place year-round for many area 4 -H clubs. Shooting sports members also us the space for air-rifle \& pistol practice \& competitions. In addition, the building is used by non-4-H groups or members of the community as a venue for parties, meetings \& other activities. This building is essential to our 4 -H program \& helps to meet a need in our wider community.

Beaverhead \(4-\mathrm{H}\) makes an impact by providing opportunities to our youth to "learn by doing" using handson, educational projects, club meetings, community service projects, and more so participants of all ages can work toward attaining life skills. Beaverhead Co. 4-H operates strictly on funds donated to the organization or raised by members. We plan to use future pledges to fund needs within the \(4-\mathrm{H}\) building to make the space more functional allowing it to remain a viable resource to the community. Additional tables and chairs are needed as our building size has increased, installation of acoustic materials to minimize echoes and audio equipment to provide a better experience for those using the building would help reach our goals for providing a safe space for our \(4-\mathrm{H}\) members
